

# Raako

Ludhiana Water Supply Co. (LWS) is the name providing sanitation facilities to the nation since 1961. Now LWS INDUSTRIES is manufacturing UV stabilized Soil,Waste & Rain water (SWR) drainage system under RAAKO BRAND, which are made of high quality raw material to provide a life time trouble free performance. These products are manufactured by using moulds & dies which have been developed by Indo-German technology. RAAKO SWR system is now the need of efficient drainage systems of the building construction companies.

RAAKO rigid PVC drainage system has several advantages over the conventional Cast Iron (C.I.) and Asbestos Cement drainage systems. Thus RAAKO brand is fastly replacing C.I. drainage applications and are useful for drainage at homes,offices,industries,hospitals and other public places. These are also useful for overflow lines and chemical waste lines in industries,food processing plants ,dairy plants etc.

## Pipes & Fittings

**Raako** is a trusted name in manufacturing a range of PVC pipe fittings. PVC pipes and fittings are widely used in construction and industrial applications. PVC Pipes and fittings are trusted for laying lines of drinking water and water main supply, micro and macro irrigation, and many other purposes. Our wide gamut of qualitative products are highly demanded in the market for their longevity, accurate dimensions and resistance to wear and tear. Being a customer centric company, we offer these pipe fittings in standard specifications.

## Seat Cover

# Seat Cover

## SEAT COVER SYMPHONY

- High-gloss,sparkling,elegant surface.
- Durable,Comfortable,Convenient,Rust proof.
- High strength-to-Weight ratio.
- Available in a wide range of alluring colours
- Easy to fix and maintain.

## SEAT COVER QUADRA

- High-gloss,sparkling,elegant surface.
- Durable,Comfortable,Convenient,Rust proof.
- High strength-to-Weight ratio.
- Available in a wide range of alluring colours
- Easy to fix and maintain.

## SEAT COVER FLAIR

- High-gloss,sparkling,elegant surface.
- Durable,Comfortable,Convenient,Rust proof.
- High strength-to-Weight ratio.
- Available in a wide range of alluring colours
- Easy to fix and maintain.

## SEAT COVER FLAIR ( With Jet )

- Heavy duty, strong built
- Comes with a built in spray nozzle, saves extra costs
- High-gloss,sparkling,elegant surface.
- Durable,Comfortable,Convenient,Rust proof.
- High strength-to-Weight ratio.
- Available in a wide range of alluring colours
- Easy to fix and maintain.

# Flushing Cistern

## ISI ELITE FLUSHING CISTERN (AS PER IS:7231)

- Specially designed Float Valve & Float as per ISI standards allows it to withstand water pressure of high rise buildings.
- Float Valve made of virgin delrin (polyacetal)
- Adjustable water level from 6 to 10 liters
- As per IS:7231
- Fast water refilling
- 10 Litre flushes in 6 seconds
- Elegantly designed, sturdy and have excellent finish
- Comes with matching bend and cup
- Non-corrosive, high strength body
- Available in a wide range of alluring colours

## QUADRA FLUSHING CISTERN

- Specially designed Float Valve & Float allows it to withstand water pressure of high rise buildings
- Adjustable water level from 6 to 10 liters
- Fast water refilling
- 10 Litre flushes in 6 seconds
- Elegantly designed, sturdy and have excellent finish
- Non-corrosive, high strength body
- Available in a wide range of alluring colours

## SYMPHONY FLUSHING CISTERN

- Economical design
- Water saver, uses just 08 ltrs of water
- Float Valve made of virgin delrin (polyacetal)
- Adjustable water level from 06 to 08 liters
- Fast water refilling
- 08 Litre flushes in 6 seconds
- Elegantly designed, sturdy and have excellent finish
- Non-corrosive, high strength body
- Available in a wide range of alluring colours

## ISI DURA FLUSHING CISTERN (AS PER IS:7231)

- Specially designed Float Valve & Float as per ISI standards allows it to withstand water pressure of high rise buildings.
- Float Valve made of virgin delrin (polyacetal)
- Adjustable water level from 06 to 10 liters
- As per IS:7231
- Fast water refilling
- 10 Litre flushes in 6 seconds
- Elegantly designed, sturdy and have excellent finish
- Comes with matching bend and cup
- Non-corrosive, high strength body
- Available in a wide range of alluring colours

## SLIMLINE FLUSHING CISTERN

- Comes with front or top push type flushing mechanism
- Specially designed Float Valve & Float allows it to withstand water pressure of high rise buildings
- Adjustable water level from 6 to 10 liters
- Fast water refilling
- 10 Litre flushes in 6 seconds
- Elegantly designed, sturdy and have excellent finish
- Non-corrosive, high strength body
- Available in a wide range of alluring colours

# Pipes & Fittings

**Elbow 4Kg**

To collect waste matter from the internal line & divert it to the main line at 90 °

Sizes: 110 mm & 90 mm

**Elbow 6Kg**

To collect waste matter from the internal line & divert it to the main line at 90 °

Sizes: 110 mm & 90 mm
